

What is the future of the Bierstube?

There will always be a home for the Bierstube at Big Mountain. The Bierstube will also continue to be housed in its current location and within its current structure for the 2005-2006 winter season. The outcome of the village planning process may result in the Bierstube moving to another location within the village in the future or as part of a newer structure (don't worry we'll keep the old rafters and interior memorabilia) in the future. That location hasn't been identified at this time.

Is there additional parking being constructed?

Yes. Additional and expanded parking is being constructed this summer and fall near the Outpost Day Lodge facility.

Will there be a free lift this winter?

Yes. The new "Big Easy" magic carpet will be available for use for free for skiers and boarders to try out the sport. Chair #6, however, will no longer be a free lift. The benefits of changing the free lift from Chair 6 to the new "Big Easy" conveyor include:

- Fewer riders will make access from parking to the village and Glacier Chaser much faster.
- Fewer beginners will allow Chair 6 to run at full-speed instead of the usual half-speed.
- Fewer beginners on Chair 6 will also reduce the number of starts and stops.
- These reasons will make it faster and more convenient for skiers and boarders to get from the Outpost Day Lodge area to the village area lifts and Glacier Chaser.
