Dear Steve:

This letter authorizes Bogus Basin Recreation Association to complete the widening of the "South Road." Jesse Green and Laurie Fink reviewed the project on-site with you and determined that an outloped road needed to be maintained and that several drainage dips would be built into the road.

This project was proposed in the 1994 Ski Area Master Plan, and there have been no significant changes since that time.

If you have any questions please contact Laurie Fink.

Sincerely,

LARRY TRAPP
District Ranger
