

Silver Mountain is taking the next step in an exciting evolution to a multi-season destination resort.

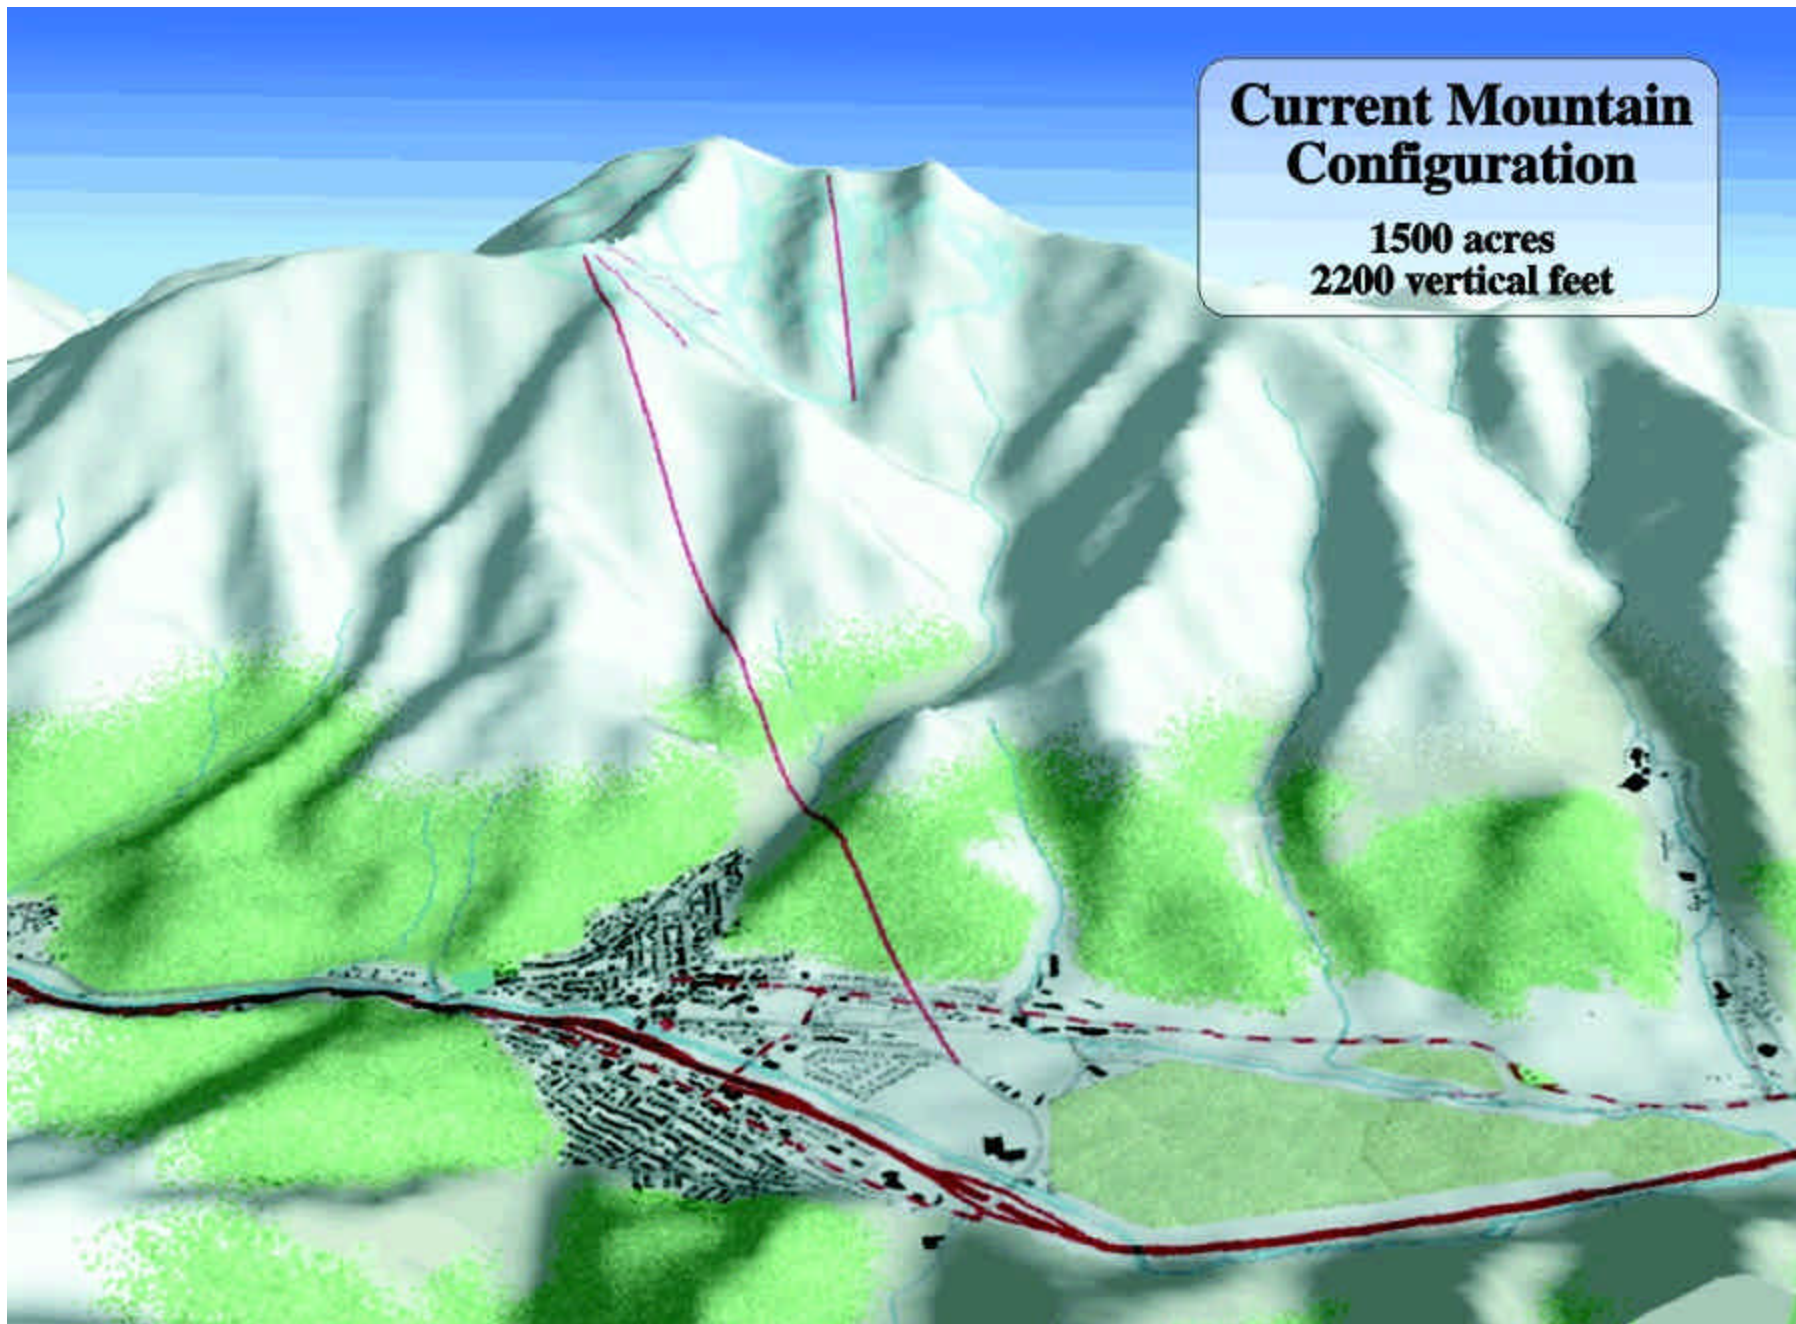

As the future continues to unfold, our master plan proposes a comprehensive expansion:

- An expanded Gondola Village with new shops, meeting facilities, restaurants and entertainment plaza
- New high-speed chairlifts and snowmaking system 
- New trails to expand the skiing, snowboarding, and mountain biking experience
- A new 'water playground' for year-round enjoyment 
- A masterfully-crafted luxury condominium lodge at the base in the heart of the Gondola Village and only steps from your high-speed access to our mountain playground

Silver Mountain 1, 5

Current Mountain Configuration

1500 acres
2200 vertical feet
