**Re: Summer Maintenance Projects 2006  
Summer Site Operating Plan 2006**

Dear Loren:

Enclosed please find the Summer Site Operating Plan 2006, for your review. Two (2) additional signature pages are for your file copies. This document has been sent via email to Steve Scheid so you may print it out as needed.

We propose the following mountain maintenance projects for this summer at Solitude:

1. Rock and stump removal- ongoing seasonal maintenance;
2. Trail brushing;
3. Maintenance of erosion control structures and reveg areas;
4. Biking/hiking trail reclamation and maintenance as necessary;
5. Tree thinning and glading in the Navarone area, and the area adjacent to Challenger ski run, consistent with Solitude's Forest Management Plan;
6. Continuation of a noxious weed abatement plan, supplemental to the Forest Vegetation Management Plan;
7. Dead tree removal;
8. Completion of landscaping at Moonbeam Lodge;
9. Expansion of the western end of the Moonbeam parking lot by .49 acres as approved in the January 2002 ROD (C15); and
10. Seal asphalt at Moonbeam, and Entry 2 road and lot.

Thank you for your consideration. Please contact me to discuss any aspect of the above. My phone number is (801) 536-5711.

Sincerely,

Mike Goar  
Exec. VP/General Manager
