

Table 1. Summary of occurrence and determination of effects for USFS Region 2 GMUG Sensitive species potentially occurring in the Telluride project area.			
Species Scientific Name	Species Common Name	Suitable habitat within the project area?	Determination of Effect
<b>Plants</b>			
<i>Botrychium echo</i>	Reflected moonwort	Yes	No impact. See detailed treatment in text.
<i>Botrychium pallidum</i>	Pale moonwort	Yes	Project may adversely impact individuals but is not likely to result in a loss of species viability in the planning area, nor cause a trend toward federal listing or a loss of species viability rangewide. See detailed treatment in text.
<i>Eriophorum alatum</i> <i>var. neogaeum</i>	Altai cotton-grass	Yes	Project may adversely impact individuals but is not likely to result in a loss of species viability in the planning area, nor cause a trend toward federal listing or a loss of species viability rangewide. See detailed treatment in text.
<b>Fish</b>			
<i>Oncorhynchus clarki pleuriticus</i>	Colorado River cutthroat trout	Yes	No impact. See detailed treatment in text.
<b>Reptiles and Amphibians</b>			
<i>Ambystoma tigrinum</i>	Tiger salamander	Yes	Project may adversely impact individuals but is not likely to result in a loss of species viability in the planning area, nor cause a trend toward federal listing or a loss of species viability rangewide. See detailed treatment in text.
<i>Bufo boreas boreas</i>	Boreal toad	Yes	No impact. See detailed treatment in text.
<i>Rana pipiens</i>	Northern leopard frog	Yes	Project may adversely impact individuals but is not likely to result in a loss of species viability in the planning area, nor cause a trend toward federal listing or a loss of species viability rangewide. See detailed treatment in text.
<b>Mammals</b>			
<i>Bassariscus astutus</i>	Ringtail	No	No impact.
<i>Gulo gulo luscus</i>	North American wolverine	Yes	No impact. See detailed treatment in text.
<i>Martes americana</i>	Marten	Yes	Project may adversely impact individuals but is not likely to result in a loss of species viability in the planning area, nor cause a trend toward federal listing or a loss of species viability rangewide. See detailed treatment in text.
<i>Microstorex hayi montanus</i>	Pygmy shrew	Yes	Project may adversely impact individuals but is not likely to result in a loss of species viability in the planning area, nor cause a trend toward federal listing or a loss of species viability rangewide. See detailed treatment in text.
<i>Plecotus townsendii</i>	Townsend's big-eared bat	No	No impact.

**Telluride 3**

Species Scientific Name	Species Common Name	Suitable habitat within the project area?	Determination of Effect
<i>Sorex nanus</i>	Dwarf shrew	Yes	Project may adversely impact individuals but is not likely to result in a loss of species viability in the planning area, nor cause a trend toward federal listing or a loss of species viability rangewide. See detailed treatment in text.
<b>Birds</b>			
<i>Accipiter gentilis</i>	Northern goshawk	Yes	Project may adversely impact individuals but is not likely to result in a loss of species viability in the planning area, nor cause a trend toward federal listing or a loss of species viability rangewide. See detailed treatment in text.
<i>Aegolius funereus</i>	Boreal owl	Yes	Project may adversely impact individuals but is not likely to result in a loss of species viability in the planning area, nor cause a trend toward federal listing or a loss of species viability rangewide. See detailed treatment in text.
<i>Buteo regalis</i>	Ferruginous hawk	No	No impact.
<i>Contopus borealis</i>	Olive-sided flycatcher	Yes	Project may adversely impact individuals but is not likely to result in a loss of species viability in the planning area, nor cause a trend toward federal listing or a loss of species viability rangewide. See detailed treatment in text.
<i>Cypseloides niger</i>	Black swift	No	No impact.
<i>Falco columbarius</i>	Merlin	No	No impact.
<i>Lanius ludovicianus</i>	Loggerhead shrike	No	No impact.
<i>Melanerpes lewisii</i>	Lewis' woodpecker	No	No impact.
<i>Otus flammeolus</i>	Flammulated owl	No	No impact.
<i>Pandion haliaetus</i>	Osprey	No	No impact.
<i>Passerella iliaca</i>	Fox sparrow	Yes	Project may adversely impact individuals but is not likely to result in a loss of species viability in the planning area, nor cause a trend toward federal listing or a loss of species viability rangewide. See detailed treatment in text.
<i>Picoides tridactylus</i>	Three-toed woodpecker	Yes	Project may adversely impact individuals but is not likely to result in a loss of species viability in the planning area, nor cause a trend toward federal listing or a loss of species viability rangewide. See detailed treatment in text.
<i>Progne subis</i>	Purple martin	No	No impact.
<i>Regulus satrapa</i>	Golden-crowned kinglet	Yes	Project may adversely impact individuals but is not likely to result in a loss of species viability in the planning area, nor cause a trend toward federal listing or a loss of species viability rangewide. See detailed treatment in text.
<i>Sitta pygmaea</i>	Pygmy nuthatch	No	No impact.
