1. Our free employee shuttle runs year round to western and northern Grand County, reducing the need for employees to drive their own cars. Last year, nearly 32,000 Winter Park employees got a free ride to work or home.
2. Winter Park funds approximately 85% of the free Lift daytime transportation system. Last year, nearly 700,000 people rode the buses, reducing fossil fuel use and improving air quality.
3. Winter Park employees may park for free in our pay lots if they carpool.
4. The Ski Train brings more than 36,000 people to Winter Park yearly, keeping that many people off the highways, reducing congestion and improving air quality. Additionally, Winter Park is served twice daily by AMTRAK, the only major ski resort that has regularly scheduled rail service.
